from conception until
natural death**

Billboard Project

Drivers going south on St. John's Rd at 84th St. saw this message of hope & offer to help in November and December.

The billboard costs \$800 for 4 weeks. Donors, thank you.

Thank You, Cedar Tree Students & Parents

Steven Traphagen, a high school junior, contacted CCRTL's Gerry Parmantier about possible pro-life projects. So on a recent Saturday he invited Gerry and a dozen or more 7th-12th grade students from his Cedar Tree Classical Christian School to his home to put together 500

packets with info to save lives from abortion and heal hearts post-abortion: local pregnancy resources including contact info. They finished in an hour full of chatter, song and laughter. The packets will be distributed at the CCRTL booth at the county fair in August & offered to Vancouver PP

Abortion Center customers and passersby during 40 Days for Life (Feb 26-April 5).

CCRTL President's Message

Happy New Year! As we enter the new year, we can take note of the progress that we have made in protecting the unborn. 40 Days for Life reported to date over 16,000 lives have been saved and over 100 abortion centers closed since the beginning of their campaign in 2007.

Because of the political climate, more awareness of the atrocities of abortion and euthanasia are brought to light. While the opposition is loud and will do their best to disguise this evil as a right, we know better and can do better. Your support in this cause is invaluable. Participation in events, donations, prayers and word of mouth are all crucial to keeping this movement alive. Please consider

joining our annual Roe v Wade rally at the Clark County Courthouse January 24th 1-2pm. This keeps us consistent in our community and lets people know we are present and will continue our work. This is also family friendly, so bring your kids too! I look forward to the next year and wish you and yours well.

Tina Bock, President

Clark County Fair Exhibit

A sample of volunteer comments: "We had a man thank us for being there because his birth mother was going to have an abortion, but decided on adoption instead."

"There was another man who got his girlfriend pregnant and she wanted to have an abortion, but he

thought abortion was wrong. He asked us how he could change her mind. We talked to him for a while and gave him pregnancy resources." Thank you, volunteers who stand up for life. Next fair Aug. 7-16. Contact 4life@clarkrtl.org to volunteer. Free entry/parking passes provided.

40 Days for Life

World-wide 16,742 lives saved since 2007 start in Byrum, TX.. www.40daysforlife.com/

Stories from the Fall 40 Days for Life prayer vigil site (NE 116 Ave.). Two young women took the *local pregnancy resources* packet. Later they drove back to thank us for the information, especially about post-abortion healing. "So many people don't realize that abortion hurts women." *And it hurts men as well.* A man stopped his truck in

the street & rolled down the window. "Thanks for being here today. As a young man I participated in an abortion. When I die, I know God will send me to hell." A volunteer took his hand: "God wills all men be saved and come to the knowledge of the truth". The man left with information about post-abortion healing. We pray he will find forgiveness and healing.
