

June 2020

Clark County Fair has been cancelled for this year...time to "Go Local"

Clark County Right to Life

A message from our President, Tina Bock

Hello fellow pro-lifers,

I hope this letter finds you all well in the midst of the Covid-19 pandemic. Some of you may be wondering what has happened behind the scenes while stay at home orders were in place and our regular activities were canceled: 40 Days for Life spring campaign and our annual Clark County Fair. While we are saddened to miss these events, we are encouraged that this pandemic has brought about more prayer and more light being shed on our cause. In March, while we were dealing with distance learning, stay at home orders, and trying to find toilet paper, Governor Jay Inslee signed into law SB5395, which is mandatory Comprehensive Sex Ed (or CSE). This bill mandates that every student in Washington public schools receives a com-

prehensive sex education starting in kindergarten. Governor Inslee received over 9,800 calls asking him not to sign this bill and only 59 in support. There are so many loopholes that it is impossible for parents to opt out because some information is covered in other subjects. How does this affect Clark County Right to Life? "The root is Planned Parenthood and a fifteen-year-old framework for intentional reform." Planned Parenthood's goal is to build trust with young students and promote abortion and dangerous sexual activities. Informed Parents of Washington organized a petition to repeal this bill and get Referendum 90 on the November 3rd ballot!! Many of you signed the petition and we more than doubled our goal of signatures!! 266,000+ signatures is something to be proud of - especially during a global pandemic! Until we are able to get back to "normal", I encourage you to register to vote, stay connected to our website www.clarkrtl.org regarding all upcoming activities such as 40 Days for Life and stay safe.

"Going Local" with the message means using the money budgeted for the fair exhibit for an extra 8 weeks of the billboard. 1. St. Johns Rd & 78th St (6/15- 7/12). 2. Minnehaha Blvd & St James Rd (6/22- 7/19). In addition we already had our yearly billboard

"Going Local"...Neighborhood Signs for Life

ordered at 18th St and Andresen Rd (8/24-10/18). Thank s to our generous donors.

"Going Local" with the message also means providing every household which receives this newsletter with their very own "home-style" version of our "You are not alone" billboard on page 2. Put it on the inside of a window and share its message with anyone who comes to your front door. You may make copies for friends in the neighborhood, at church, school and anywhere people will read it.

Pregnant? **You are** ***not alone.***
